

Sardar Vallabhbhai Patel University of Agriculture & Technology, Meerut – 250110

Glimpses of Research Facilities

Central Instrumentation Facility	
Advance Biotechnology Laboratory	
Bio-agents production Laboratory	
Critical care unit for farm and companion animals	
Phyto- Nematology Laboratory	
Micro- Nutrient Laboratory	
Referral analytical laboratory for microbial toxins and environmental	
pollutants/toxicants.	
Centre of Excellence on Basmati Rice	
Centre of Excellence for Sanitary and Phyto sanitary certification	
Advance Diagnostic Laboratory	
Centre of Excellence on Agricultural Biotechnology	
Formalin less Animal Anatomy Educational Museum	
Crop Research Centre	
Horticulture Research Centre	
Instructional Livestock Farm Complex II	
Vermi compost Unit	
Golden jubilee Forage Garden	
Plant Health Clinic	
Poly house and Green house	
The Veterinary Clinical Complex	
Large Animal Clinic	
Small Animal Clinic	
Central Instrumentation Facility in COVAS	
Tissue Culture Laboratory	
Bioinformatics Infrastructure Facility, BTISNET	
Livestock Products Technology Laboratory	
Lab Animal Facility	
Poultry Research and Training Centre	
Livestock Research Centre	
Non destructive food analysis laboratory	

Registrar

S.V.P. Unit (U.P.)

Advance Diagnostic Laboratory for Identification of Livestock Diseases

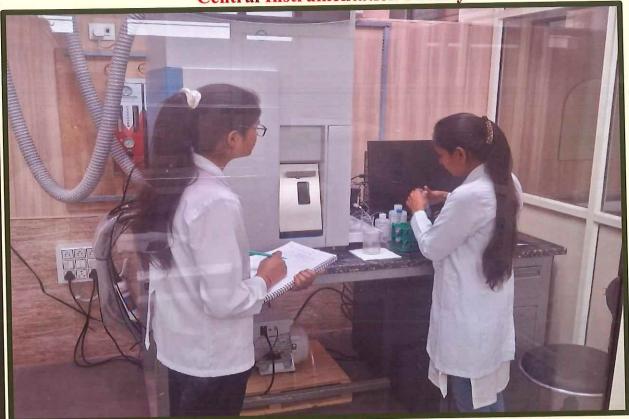

Dr. Jeny K John Assistant Professor demonstrating microscopy based diagnostics

Dr. Jeny K John Assistant Professor demonstrating gel documentation system to students

Central Instrumentation Facility

The post graduate students of the university performing heavy metal estimation on recently upgraded Inductively coupled plasma mass spectrometer in central instrumentation facility

Post Graduate student of the university working on recently upgraded Equipment Fluorescence microscope in Central Instrumentation Facility on 15/11/2022

Central Instrumentation Facility

PhD scholar of the university working on recently upgraded equipment Real Time PCR in Central Instrumentation Facility

Post Graduate student of the university working on recently upgraded equipment I Fuscocentrifuge in Central Instrumental Facility

Advanced Biotechnology Lab

Post Graduate Student of the university processing Animal Tissue for RNA extraction in Advanced Biotechnology Lab

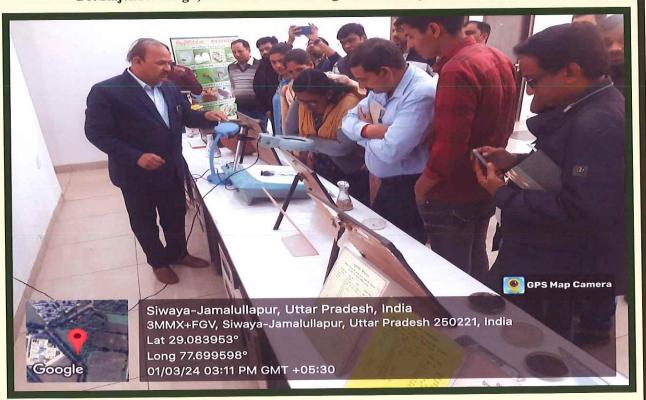

Post Graduate students of the university performing cDNA synthesis for their thesis work in Advanced Biotechnology lab

Bio-agents production Laboratory

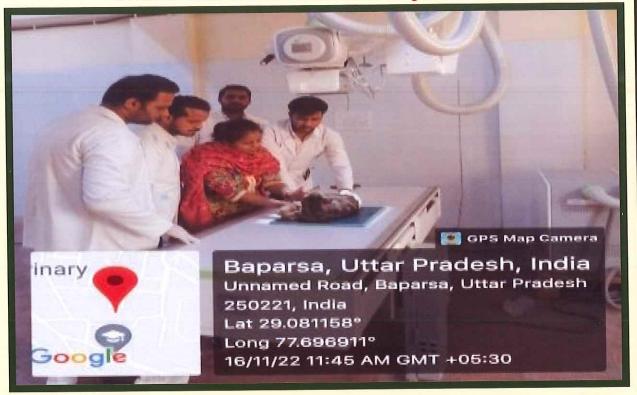

Dr. Rajender Singh, Professor introducing biocontrol agents to school students

Dr. Rajender Singh, Professor showing Trichoderma under microscope to trainees in a training programme

Critical Care Unit for farm and companion animals

Veterinary students of the university performing X-ray of dog patient in critical care unit on 16/11/2022

Vetyerinary students of the university performing Fluid therapy of critically ill dog on 5/11/2023

Phyto-Nematology Laboratory

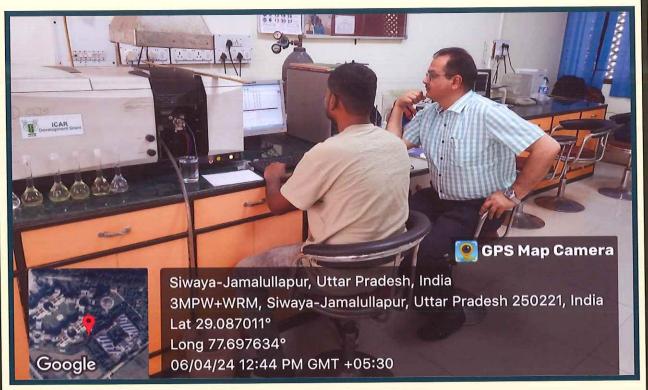

The students of the university working on nematodes under microscope for their PhD thesis work

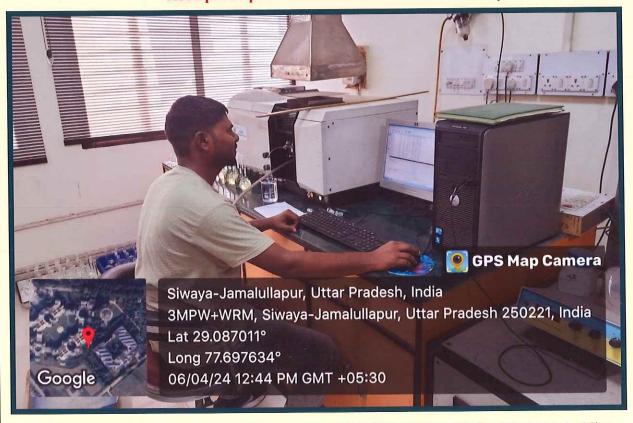

The student of the university working on nematodes in Phyto-nematology lab for her PhD thesis

Micro Nutrient laboratory

Dr U.P. Shahi Professor of the university along with PhD student working on upgraded Atomic Absorption Spectrometer in Micro nutrient laboratory

PhD scholar of the university working on upgraded Atomic Absorption Spectrometer in Micro nutrient laboratory

Referral analytical laboratory for microbial toxins and environmental pollutants/ toxicants

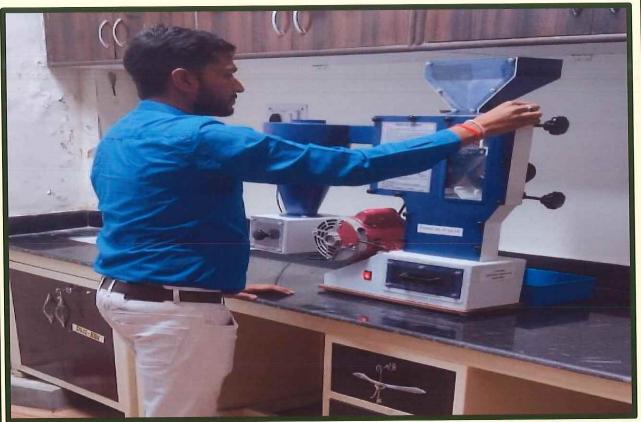

The students of the university performing haematology of blood sample in Referral analytical laboratory

Registrar S.V.P. Uni. of Agri. & Tech Meerut-250110 (U.P.)

Centre of Excellence on Basmati Rice

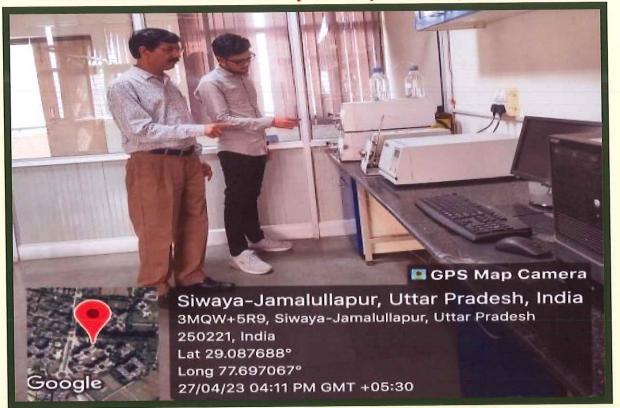

The Post graduate student of the university is working on rice hulling equipment in Centre of excellence on Basmati rice

Dr. Kamal Khilari, Professor introducing basmati rice characteristics to the students whe university

Centre of Excellence for Sanitary and Phyto sanitary certification

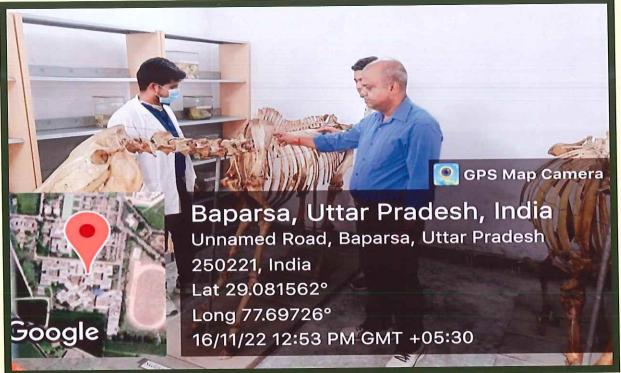

Dr. Ramesh Singh, Proffessor explaining HPLC operational protocol to PG student

Director NIPGR visiting sanitary & phyto-sanitary laboratory and interacting with students on working phytosanitory in lab.

Formalin less Animal Anatomy Educational Museum

Dr. Prabhakar Kumar, Associate Professor explaining Anatomy of cattle to Veterinarry Students

Veterinary students observing anatomy samples in museum with Dr. Prabhakar Kumar

Crop Research Centre

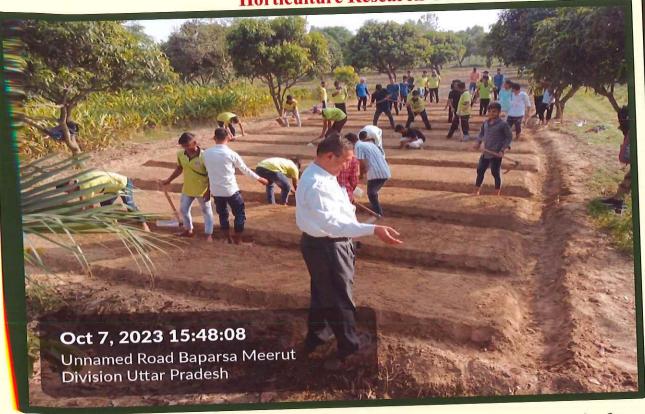

Research scholars from Department of Genetics and Plant Breeding making crosses in Indian mustard for their PhD thesis

Research scholars from Department of Genetics and Plant Breeding making crosses in wheat for their PhD thesis research work

Horticulture Research Centre

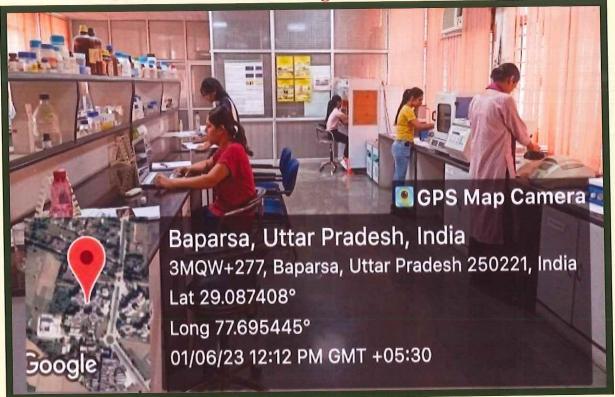

Dr. Satya Prakash, Professor of the university explaining method of bed preparation for vegetable cultivation to students at Horticultural Research Station

Post Graduate Students of the university recording observations in Strawberry experiment for their thesis work

Centre of Excellence on Agricultural Biotechnology

PG students performing research protocols for their thesis work

Registrar S.V.P. Uni. of Agri. & Tech. Meerut-250110 (U.P.)

Plant health clinic

PhD students of the university working on BOD incubator in Plant Health Clinic Lab

Dr. Prashanr Mishra explaing characteristics of fungi under microscope to the post graduate students in Plant Health Clinic Lab

Meerut-250110 (U.P.)

Poly house and Green house

Dean Horticulture and Dr. Vipin Kumar observing students experiment on lettuce cultivation in vertical farming system at Poly house facility

Students learning Cucumber cultivation in Grow begs at Poly house facility

Registrar

The Veterinary Clinical Complex

Dr. Atul Kumar Patel demonstrating students disease investigation in dog to the B.V.Sc students of the university

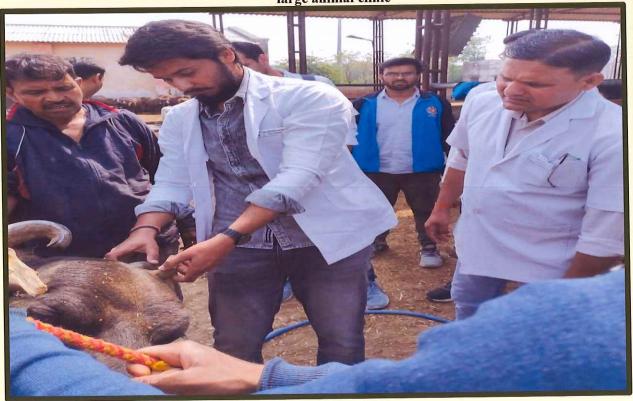

Dr. M. V. Jatin Assistant Professor educating disease investigation in Dog to the students

Large Animal Clinic

Dr. Arbind Kumar, Assistant Professor of the university with the students dehorning buffalo at large animal clinic

The students of university with Dr. Arbind Kumar, Assistant Professor learning dehorting of buffalo at large animal clinic

Small Animal Clinic

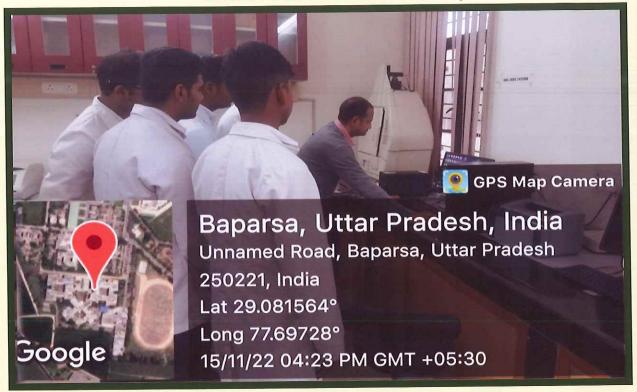

Dr. Ajeet Kumar Singh, Assistant Professor demonstrating ultrasound to students in Small animal clinic

Dr. M. V. Jatin Assistant Professor and veterinary students recording observations on pression Small animal clinic

Central Instrumentation Facility

Dr. Kaushlesh Ranjan, Assistant Professor demonstrating gel documentation system to students

The veterinary post graduate students working on Bio-safety cabinet for thesis work

Registrat S.V.P. Unit. of Agri & Tec Meerut-250110 (U.P.) **Tissue Culture Laboratory**

Dr. R. S. Sengar showing tissue cultured plants in culture tubes to students

Dr. R. S. Sengar showing hardening of tissue cultured plants to school children

S.V.P. Uni. of Agri. & 180 Meerut-250110 (U.P.)

Bioinformatics Infrastructure Facility

Training Programme for the students of Biotechnology in Bioinformatics Facility

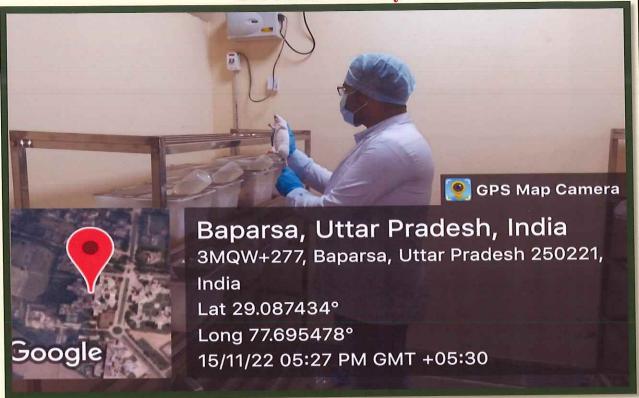

Dr. Akhilesh Kumar Verma, Assistant Professor of the university working on recently upgraded equipment Protein analyzer in Livestock Products Technology Analytical Laboratory

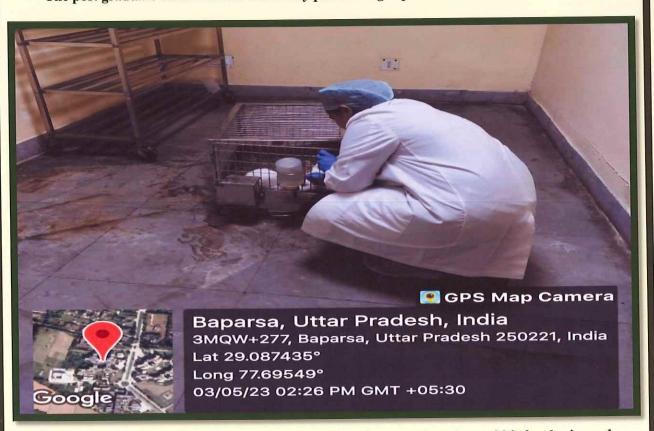

Registral & Tech

S.V.P. Uni. of Age. Meerut-250110 (U.P.)

Lab Animal Facility

The post graduate student of the university performing experiment on mice for thesis work

The post graduate student of the university performing experiment on rabbit for thesis work

S.V.P. Uni. of Agri. & Tech. Meerut-250110 (U.P.)

Poultry Research and Training Centre

Dr. D.K. Singh Professor teaching poultry breed characteristics to veterinary students

Dr. Manoj Kumar Singh, Asso. Prof. explaing brooding in poultry to veterinary students

S.V.P. Uni. of Agri. & Indiana Meerut-250110 (U.P.)
