

# Agri Processing Unit

The Agro Processing Centre was established at College of Post Harvest Technology and Food Processing, SVPUA&T, Meerut with funding from RKVY, Lucknow (UP). Agro-processing offers great scope for conversion of farm produce to consumer commodities and in the process reduces wastage, increase shelf- life; resulting in value addition and higher income transfer to the farmers from different classes of consumers, as the processed commodities has wider market. Establishment of APC (Agro Processing Centre) provides value-addition, processing and imparted training and skilled development program amongst the educated unemployed youths, rural women and farmers. Those persons, who are engaged in procurement, processing and marketing of the food grains, will directly be benefited by APC. Farmers, who are presently under employed, will try to increase his farm productivity by employing himself as labour in this occupation and can earn extra money. This will reduce the degree of his under employment. To overcome the loss of quality and quantity, reducing the burden on transport for carrying non-edible parts of the grain, increase rural unemployment and reduce women drudgery in processing, a model agro-processing centre has been planned. The products namely Dalia, Dhal, Dried product, edible Oil, Potato products, banana chips, Multigrain flour, Bakery items, Multigrain Pasta, Rice, Wheat flour etc. are produced at Agro Processing Centre.

## Training Activities

**Training 1: 14-12-2021 - 16-12-2021**

**Training 2: 05-01-2022 - 07-01-2022**

### **Machinery Installed at Agro Processing Unit**

**Dal Mill**

**Rice Sheller**

**Rice Grader**

**Atta Chakki**

**Grain Cleaner/grader**

**Dalia Mill**

**Fruit Pulper**

**Pickle Mixer**

**Shrink Wrapping Machine**

**Potato Peeler**

**Shrink Wrapping Machine**

**Blancher**

**Oil Expeller**
